

**DEPARTMENT OF COMMUNITY MEDICINE**  
**VMMC & SAFDARJUNG HOSPITAL, NEW DELHI – 110029**

Dated: 12.09.2019

**NOTICE**

This is in reference to an ICMR funded trial entitled "A Phase III, Randomized, Double-blind, Three arm Placebo controlled Trial to Evaluate the Efficacy and Safety of two vaccines VPM1002 and Immuvac (Mw) in Preventing Tuberculosis (TB) in Healthy Household Contacts of Newly Diagnosed Sputum Positive Pulmonary TB Patients."

We are one of the sites of this multicentric trial. For the purpose of this trial, quotations are invited from NABL accredited GCLP compliant labs for the following investigations of **600 study participants:**

1. Haemogram
2. Liver Function Tests - SGPT, SGOT, Alkaline Phosphatase, Serum Bilirubin
3. Renal Function Tests - Serum Creatinine, Serum Urea
4. Random Blood Sugar

The lab will be required to pick up the samples from VMMC & Safdarjung Hospital, New Delhi and transporting them to the lab under appropriate conditions. Reporting of results should be done on the same day.

Hence, you are requested to send the quotation to the undersigned at the earliest along with supportive documents (e.g., NABL accreditation, GCLP, participation in an accredited EQAS program etc.)
