

Time Table for MBBS 2019 Batch PHASE III PART I

| Date | Days | 8-9am | 9-10 am | 10-11 am | 11-12 am | 12-1 pm | 1-2 pm | 2-3 pm | 3-4 pm |
|-----------|-----------|---|---------|----------|----------|--|--|--|--------|
| 01-Feb-22 | Tuesday | EN1.1 Describe the Anatomy & physiology of Ear | | | | Lecture PE 1.1 Define the terminology Growth and describe factors affecting it. PE 1.2 Discuss and describe the patterns of growth In Infants, children and adolescents | Lecture FM 2.20, 2.22. Asphyxia: Definition, classification, features, post mortem findings. Traumatic Asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia | Lecture FM 2.21. Mechanical asphyxia: Hanging and strangulation including examination, preservation and dispatch of ligature material! | |
| 02-Feb-22 | Wednesday | AS1.1,1.2,1.4: Lecture-Anaesthesia as a specialty- Introduction/ History/ Scope and Future | | | | CT1.1 Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India | CM5.5 Describe the methods of Nutritional Surveillance Principles of nutritional education and rehabilitation in the context of socio-cultural factors. CM5.6 : Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc (L) | | |
| 03-Feb-22 | Thursday | RD 1.1 & 1.2 Define radiation and the interaction of radiation and Importance of radiation protection Describe the evolution of Radiodiagnosis. Identify various radiological equipments in current era. | | | | EN1.1 Describe the Anatomy & physiology of Nose | INTEGRATED LECTURE A- Anatomy and Development of the Eye AN41.1 Describe & demonstrate parts and layers of the eyeball. | INTEGRATED LECTURE B- Anatomy and Development of the Eye AN41.1 Describe & demonstrate parts and layers of the eyeball | |
| 04-Feb-22 | Friday | CT1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis | | | | CM 5.6 (B) National Nutrition Policy, ICDS + Midday Meal Programme(L) | DM 1.1 Enumerate the causative and risk factors of acute Dr 1.3 Describe the treatment and preventive measures for various kinds of acne. | Lecture- PS2.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society. | |
| 05-Feb-22 | Saturday | Semina PE 1.3 Discuss and Describe methods of assessment of growth and growth parameters. | | | | SEMINAR OR1 1 - Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage | Aetcom Module CM3.1 The Foundations of Communication-3 | Aetcom Module CM3.1 The Foundations of Communication-3 | |
| 07-Feb-22 | Monday | LECTURE 1/ INTEGRATED LECTURE-Physiology of eye and vision OP1.1 Describe the physiology of vision PY10.17 Describe and discuss functional anatomy of the eye, physiology of image formation, physiology of vision including colour vision, Refractive errors, colour blindness, Physiology of pupil and light reflex | | | | OG1.1 Define and discuss birth rate, maternal mortality and morbidity; Lecture; Vertical Integration with Community Medicine | Lecture -1 IM 8.1 Describe and discuss the epidemiology, aetiology and the IM 8.4 Define and classify hypertension IM 8.5 Describe and discuss the differences between primary and | SU1.1 Describe basic concepts of homeostasis, enumerate the metabolic changes in injury and their mediators. VERTICAL INTEGRATION with Physiology, Biochemistry. SU1.2 Describe the factors that affect the metabolic response to injury. | |
| 08-Feb-22 | Tuesday | EN1.1 Describe the Anatomy & physiology of Throat, Heart & Resp. | | | | Lecture PE 2.1 Discuss etiopathogenesis, clinical features and approach to management of a child with failure to thrive. | Lecture FM 2.23. Drowning - types, patho-physiology, clinical features, post- mortem findings and medico-legal aspects of drowning, diatom test and, gettler test. | Lecture FM 2.19. Investigation of anaesthetic, operative deaths. AITO Anaesthesia | |
| 09-Feb-22 | Wednesday | AS3.1,3.2,3.3,3.4,3.5,3.6: SGD:Pre-anaesthetic evaluation, investigations and optimization and orders. Concept of ASA Classification. | | | | CT1.4 Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs | CM1.1 Define and Describe the concept of Public Health.CM1.2 Define health, describe the concept of holistic health (Tutorial/SGD) | | |
| 10-Feb-22 | Thursday | RT1.1 Describe and discuss definition of radiation, mechanism of action of radiatio RT 1.2 Describe and discuss interaction of radiation with matter and measurement RT 2.1 Describe and discuss Radiation Protection and personnel monitoring during | | | | EN4.1 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otagia | LECTURE 2 A / INTEGRATED LECTURE- PHYSIOLOGY OF OCULAR MOTILITY AND BINOCULAR VISION OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unocular & Binocular) AN41.3 Describe the position, nerve supply and actions of intraocular muscles. | LECTURE 2 B / INTEGRATED LECTURE- PHYSIOLOGY OF OCULAR MOTILITY AND BINOCULAR VISION OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unocular & Binocular) AN41.3 Describe the position, nerve supply and actions of intraocular muscles. | |
| 11-Feb-22 | Friday | CT1.5 Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestations | | | | CM 17.1 Define and describe the concept of health care to community(L) | CM2.2 Describe the treatment of strabg | Lecture + DOAP PS3.3 Elicit, present and document a history in patients presenting with a mental disorder. PS3.5 Perform, demonstrate and document a mental status examination.PS1.1 Establish rapport and empathy with patients | |
| 12-Feb-22 | Saturday | Lecture PE 2.4 Disease etiopathogenesis, clinical features and approach to management of a child with short stature. | | | | OR1.1 - Describe and discuss the principles of pre-hospital care and casualty management of a trauma victim including principles of triage | Aetcom Module CM3.1 The Foundations of Communication-3 | Aetcom Module CM3.1 The Foundations of Communication-3 | |
| 14-Feb-22 | Monday | LECTURE 3 OPTICS OP1.2 Define, classify, and describe the types and methods of correcting refractive errors. | | | | OG1.2 Define and discuss perinatal mortality and morbidity including perinatal mortality and morbidity audit, Lecture | Lecture - 2 IM 8.2 Describe and discuss the pathophysiology of hypertension IM 8.3 Describe and discuss the genetic basis of hypertension Lecture FM 3.13. Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of Rape (Section 375, 376 IPC) and recent amendments. AITO Obstetric & Gynaecology | SU1.3 Describe basic concepts of perioperative care | |
| 15-Feb-22 | Tuesday | EN4.5 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otagia | | | | Seminar/ Tutorial PE 1.5-1.6 Normal development: principles, milestones in different domains | | Lecture FM 3.16 - 7. Adultery and unnatural sexual offences-sodomy, Incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases. Sexual perversions - fetishism, transvestism, voyeurism, sadism, necrophagia, masochism, exhibitionism, frotteurism, Necrophilia. AITO Obstetric & Gynaecology and Psychiatry | |
| 16-Feb-22 | Wednesday | AS 4.2. SDL and lecture: Anatomy of airway and its implications for anaesthet | | | | CT1.8 Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis | CM1.3 Describe the characteristics of agent, host and environmental factors in health and disease and the multifactorial aetiology of disease.CM1.4 Describe and discuss the natural history of disease CM1.5 Describe the application of interventions at various levels of prevention (Tutorial/SGD) | | |

RD 1.3, 1.4 & 1.6
Indications for various common radiological investigations, r

CT1.14 Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, contraindications, interactions and adverse reactions

Seminar PE 1.6 assessment of normal and abnormal development

LECTURE 5 ERRORS OF REFRACTION-2
OP1.2 Define, classify and describe the types and methods of correcting refractive errors

OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pinhole test and the menace and blink reflexes

Describe and discuss Radiation Protection and personnel monitoring during AS4.1: SDI: Pharmacology of Inhalational and intravenous induction agents, opiate and non-opiate analgesics, muscle relaxants, anticholinesterases

RT 1.3
Enumerate, describe and discuss classification and staging of cancer (AJCC, FIGO etc.)

CT1.17 Define criteria for the cure of Tuberculosis; describe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimens

Lecture: PE 3.1 & 3.2 Discuss the approach to a child with developmental delay, intellectual disability.

LECTURE 7- SPECTACLES AND CONTACT LENSES
OP1.2 Define, classify, and describe the types and methods of correcting refractive errors

SU4.1 Elicit document and present history in a case of Burns and perform physical examination. Describe Pathophysiology of Burns. VERTICAL INTEGRATION with Physiology. SU4.2 Describe Clinical features, Diagnosis, type and extent of burns and plan appropriate treatment

Group Discussion/Tutorial/Seminar - 2
IM 8.12 Describe the appropriate diagnostic work up based on the presumed aetiology
IM 8.13 Enumerate the Indications for and Interpret the results of: CBC, Urine routine, BUN, Cr, Electrolytes, Uric acid, ECG

OG19.2 Introduction to contraception; Lecture

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

Clinical Posting

EN4.5 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME
EN4.10 Observe and describe the indications for and steps involved in myringotomy and myringoplasty

CM 17.3 Describe primary health care, its components and principles(L)

SEMINAR OR1.2 - Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock

OG1.2 Define and discuss neonatal mortality and morbidity including neonatal mortality and morbidity audit; Lecture; Horizontal integration with Pediatrics

Seminar PE 3.7 Visit a child development unit and observe its functioning

CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers

EN1.2 Describe the pathophysiology of common diseases in Nose

CM 17.5 Describe health care delivery in India System(L)

SEMINAR OR1.3 - Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of soft tissue injuries

OG1.3 Define and discuss still birth and abortion; Lecture

AS4.3: Lecture: Induction and Maintenance of General Anaesthesia

EN1.2 Describe the pathophysiology of common diseases in Throat

CM 17.5 Describe health care delivery in India (Staffing & Job Responsibility)(L)

LECTURE 4A- ERRORS OF REFRACTION-1
OP1.2 Define, classify, and describe the types and methods of correcting refractive errors.

OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pinhole test and the menace and blink reflexes

Di 1.3 Enumerate the indications for and describe the various modalities of treatment of gonorrhoea including topical, systemic and phototherapy

Aetcom Module CM3.1 The Foundations of Communication-3

Group Discussion/Tutorial/Seminar - 1
IM 8.6 Define, describe and discuss and recognise hypertensive urgency and emergency

DOAP FM 3.14. Examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and despatch of trace evidences in such cases.

CM2.5 Describe poverty and social security measures and its relationship to health and disease (Tutorial/SGD)

LECTURE 6A- DETERMINATION OF ERRORS OF REFRACTION

OP1.2 Define, classify and describe the types and methods of correcting refractive errors

DR 5.1 Describe the etiology, microbiology, pathogenesis, natural history, clinical features, presentations and complications of scabies in adults and children

Aetcom 3.2 Bioethics - Introduction

Lecture - 3
IM 8.7 Describe and discuss the clinical manifestations of the various aetiologies of secondary causes of hypertension
IM 8.8 Describe, discuss and identify target organ damage due to hypertension

CM3.2 (I) Describe concepts of safe & wholesome water, sanitary sources of water, water purification processes
CM3.4 Describe the concept of solid waste, human excreta and sewage disposal (SDL)

LECTURE 8A- REFRACTIVE SURGERY
OP1.4 Enumerate the indications and describe the principles of refractive Surgery
OP9.3 Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral.

Dr 4.2 Enumerate and describe the treatment modalities for lichen planus

LECTURE 4B- ERRORS OF REFRACTION-1
OP1.2 Define, classify, and describe the types and methods of correcting refractive errors

OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pinhole test and the menace and blink reflexes

SGD- PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorder

Aetcom Module CM3.1 The Foundations of Communication-3

SGD-1 Describe Pathophysiology of shock, types of shock & principles of resuscitation including fluid resuscitation and monitoring. VERTICAL INTEGRATION with Pathology, Physiology
SGD-2 Describe the clinical features of shock and its appropriate treatment.

DOAP FM 14.15. To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence

LECTURE 6 B- DETERMINATION OF ERRORS OF REFRACTION

OP1.2 Define, classify and describe the types and methods of correcting refractive errors

Lecture-PS3.7 Enumerate and describe common organic psychiatric disorders, magnitude, etiology and clinical features PS3.8 Enumerate and describe the essential investigations in patients with organic psychiatric disorders

Aetcom 3.2 Bioethics - Anchoring Lecture

SU3.1 Describe the Indications and appropriate use of blood and blood products and complications of blood transfusion. VERTICAL INTEGRATION with Pathology. SU3.2 Observe blood transfusions. SU3.3 Counsel patients and family friends for blood transfusion and Blood donation.

LECTURE 8B- REFRACTIVE SURGERY
OP1.4 Enumerate the indications and describe the principles of refractive Surgery
OP9.3 Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral

Lecture PS 4.1 Describe the magnitude and etiology of alcohol and substance use disorders. PS4.2 Elicit, describe and document clinical features of alcohol and substance use disorders

Handwritten signature and date: 21/12/21

Handwritten signature and date: 25/12/21

Handwritten signatures and dates at the bottom of the page: rehan, Jyals, Dabral, Ram, 20/12/21, and others.

| | | | | | | |
|-----------|-----------|---|------------------|--|--|---|
| 17-Mar-22 | Thursday | Lecture – 6 IM 11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies IM 11.9 Describe and recognise the clinical features of patients who present with a diabetic emergency IM 11.10 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology IM 11.15 Recognise the presentation of diabetic emergencies and outline the principles of therapy | Clinical Posting | EN2.5 Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum EN 3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy EN4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of Nasal Obstruction | LECTURE 10 A/ DOAP- SHORT CASES CONJUNCTIVA OP 3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma. OP3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment. OP3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment. | *LECTURE 10 B/ DOAP- SHORT CASES CONJUNCTIVA OP 3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma. OP3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment. OP3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment. |
| 18-Mar-22 | Friday | Hihi | | | | |
| 19-Mar-22 | Saturday | Tutorial / small group discussion PE 5.3-5.5 Common childhood behavioral problems: nail biting, enuresis, encopresis, fussy infant, temper tantrums | Clinical posting | LECTURE OR1.5 - Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip | AETCOM 3.3 1. Demonstrate ability to communicate to patients, respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend, medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures. 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment | AETCOM 3.3 1. Demonstrate ability to communicate to patients respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend, medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment |
| 21-Mar-22 | Monday | LECTURE 11- CORNEA BLINDNESS OP4.3 Enumerate the causes of corneal edema OP4.5 Enumerate the causes of corneal blindness | Clinical posting | OG21.1 Intrauterine devices: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture | Small Group Discussion/Tutorial/Seminar – 4 IM 11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis IM 11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state | IM7.1 Describe the Planning and conduct of Surgical audit VERTICAL INTEGRATION with Community Medicine SA7.2 Describe the principles and steps of clinical research in General Surgery |
| 22-Mar-22 | Tuesday | EN2.5 Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum EN3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy EN4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Nasal Obstruction | Clinical posting | Lecture PE 6.1-6.2 Adolescence: stages, physiological changes | FORMATIVE ASSESSMENT DOAP FM 3.15. Examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and despatch of trace evidences in such cases. | DOAP FM 14.14. To examine & prepare report of an alleged accused in rape/unnatural sexual offence in a simulated/ supervised environment |
| 23-Mar-22 | Wednesday | SU8.1 Describe the principles of Ethics as it pertains to General Surgery SU8.2 Demonstrate Professionalism and empathy to the patient undergoing General Surgery VERTICAL INTEGRATION with Forensic Medicine, AETCOM 5.6.2 Discuss Medical-legal issues in surgical practice | Clinical posting | ASS.1.5.2.5.4.5.5: Lecture: Central Neuraxial Blockade: Anatomy of central neuraxial spaces, Physiology of blockade, types of blocks- techniques and complications | CM5.5 Describe the methods of Nutritional Surveillance Principles of nutritional education and rehabilitation in the context of socio-cultural factors. CM5.6 Enumerate and discuss the national nutrition Policy, important National Nutrition Programs including the Integrated Child Development services Scheme (ICDS) etc.(Tutorial/SGD) | |
| 24-Mar-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 5 IM 11.14 Recognise the presentation of hypoglycaemia and outline the principles on its therapy IM 11.22 Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment | Clinical posting | EN4.13 Describe the clinical features, investigations and principles of management of Otitosclerosis | LECTURE 12A- CORNEAL ULCERS AND KERATITIS OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis | LECTURE 12B- CORNEAL ULCERS AND KERATITIS OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis |
| 25-Mar-22 | Friday | OG21.1 Hormonal contraception: Describe and discuss indications, technique and complications; selection of patients, side effects and failure rate; Lecture | Clinical posting | CM 17.4 Universal Health Coverage(L) | IM 6.1 Describe the aetiology (pathogenesis) and diagnostic features of pediculosis in adults and children | Lecture-PS5.1 Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders. PS5.2 Enumerate, elicit, describe and document clinical features, positive symptoms of schizophrenia. |
| 26-Mar-22 | Saturday | Lecture PE 6.3-6.4 Adolescence: common health and sexuality related problems | Clinical posting | LECTURE OR1.5 - Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip | AETCOM 3.3 1. Demonstrate ability to communicate to patients, respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend, medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures. 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment | AETCOM 3.3 1. Demonstrate ability to communicate to patients, respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend, medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures. 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment |
| 28-Mar-22 | Monday | LECTURE 13- DEGENERATIONS OF CORNEA OP4.3 Enumerate the causes of corneal edema OP4.5 Enumerate the causes of corneal blindness | Clinical posting | OG21.1 Describe and discuss Male contraception including sterilization; Tutorial | Small Group Discussion/Tutorial/Seminar – 6 IM 11.16 Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions IM 11.17 Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost-effective manner | IM9.1 Choose appropriate biochemical, microbiological, ophthalmological, imaging investigations and interpret the investigative data in a surgical patient. VERTICAL INTEGRATION with Biochemistry, Microbiology, Pathology. SA9.3 Communicate the results of surgical investigations and counsel the patient appropriately |

EN2.9 Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders

SD1.2 Histological basis for early detection of cancer and multidisciplinary approach in management of cancer

Small Group Discussion/Tutorial/Seminar – 7
IM 11.18 Describe and discuss the pharmacology, Indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease

OG21.1 Nonhormonal contraception and emergency contraception: Describe and discuss Indications, technique and complications; selection of patients, side effects and failure rate; Lecture

Tutorial/ Small group discussion
PE 9.1-9.3 Describe the age related nutritional needs of Infants, children and adolescents Including micronutrients and vitamins, tools and methods for assessment and classification of nutritional status, calorific value of common foods

LECTURE 15- KERATOPLASTY AND EYEBANKING
OP4.6 Enumerate the indications and the types of keratoplasty.
OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking
OP4.10 Counsel patients and family about eye donation in a simulated environment

EN4.14 Describe the clinical features, investigations and principles of management of Sudden Sensorineural Hearing Loss

SD10.1 Describe the principles of perioperative management of common surgical procedures. SD10.3 Observe common surgical procedures and assist in minor surgical procedures. Observe emergency life saving surgical procedures

Lecture – 7
IM 2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease
IM 2.2 Discuss the aetiology of risk factors both modifiable and non-modifiable of atherosclerosis and IHD
IM 2.3 Discuss and describe the lipid cycle and the role of dyslipidemia in the pathogenesis of atherosclerosis
IM 2.4 Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD

OG8.7 Enumerate the indications for and types of vaccination in pregnancy; Lecture

Small group discussion/ tutorial
PE 7.3-7.4, 8.1-8.2 Infant and young child feeding: Breast feeding, breast milk, Discuss the principles, the initiation, attributes, frequency, techniques and hygiene related to Complementary Feeding including IYCF

AS5.2,5.3,5.4,5.6: Lecture: Peripheral Nerve Blocks

FN7.9 Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders

CM 11.1 Enumerate and describe the presenting features of patients with occupational illness including Agriculture
CM 11.3 Enumerate and describe specific occupational health hazards, their risk factors and preventive measures(L)

OG8.1 Enumerate describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors; Tutorial

DOAP
PE 7.8-7.9 Educate mothers on ante natal breast care and prepare mothers for lactation Educate and counsel mothers for best practices in Breast feeding
RD 1.5, 1.7 & 1.8 Indications for various common radiological investigations, most appropriate and cost- effective imaging methods pertaining to disorders of Internal medicine, Pediatrics and Common Malignancies.

EN4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina

CM 11.2 Describe the role, benefits and functioning of the employees state insurance scheme
CM 11.4 Describe the principles of ergonomics in health preservation
CM 11.5 Describe occupational disorders of health professionals and their prevention & management(L)

DOAP FM 3.15. Examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and despatch of trace evidences in such cases.

CM7.1 Define Epidemiology and describe and enumerate the principles, concepts and uses
CM7.2 Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases
CM7.3 Enumerate, describe and discuss the sources of epidemiological data (Tutorial/SGD)
LECTURE 14A- MISC. CORNEA
OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy.
OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment.

DR 7.1 Describe the etiology, microbiology, pathogenesis and clinical presentatms and diagnostic features of dermatophytes in adults and children

AETCOM 3.3 1. Demonstrate ability to communicate to patients, respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures. 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment
Self-Directed Learning 1
Glucose monitoring and Insulin therapy in Diabetes

Lecture FM2.27 - 2.28. Infanticide - signs of intrauterine death, signs of live birth, viability of foetus, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy

CM7.5 Enumerate, define, describe and discuss epidemiological study designs.
CM7.7 Describe and demonstrate the steps in the investigation of an epidemic of communicable disease and describe the principles of control measures. (Tutorial/SGD)

DOAP 1
OP2.3 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac massage: technique in cong. dacryocystitis, and trichiatric cilia removal by epilation

DR 7.1 Describe the pharmacology and action of antifungal (systemic and topical) agents. Enumerate side effects of anti-fungal therapy.

DOAP FM 14.14. To examine & prepare report of an alleged accused in rape/unnatural sexual offence in a simulated/ supervised environment

LECTURE 14B- MISC. CORNEA
OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy.
OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment

Lecture- P55.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy. P55.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders.

AETCOM 3.3 1. Demonstrate ability to communicate to patients respectful, nonthreatening, non-judgemental and empathetic manner 2. identify, discuss and defend medicolegal, socio-cultural and ethical issues as they pertain to consent for surgical procedures. 3. Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment

SD1.2 Histological basis for early detection of cancer and multidisciplinary approach in management of cancer

SDL FM3.29. Child abuse and battered baby syndrome. FM2.26. Clinical features, post-mortem findings and medico-legal aspects of death due to starvation and neglect syndrome by proxy

DOAP 2
OP2.3 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis and trichiatric cilia removal by epilation

Lecture- P56.1 Classify and describe the magnitude and etiology of depression. P56.2 Enumerate, elicit, describe and document clinical features in patients with depression. P56.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression.

Handwritten notes in blue ink: "Abup 21/12/21" and "Www 21/12/21" with a signature.

Handwritten signature in blue ink: "fu".

Handwritten signature in blue ink: "reemad".

| | | | | | |
|-----------|-----------|--|------------------|--|---|
| 9-Apr-22 | Saturday | Lecture PE 10.1-10.2, 10.3, 10.6 Nutritional problems: Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM), Approach to a child with SAM/ MAM, Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention, RUTF | Clinical posting | Aetcom Module CM3.1 The Foundations of Communication-3 | Aetcom Module CM3.1 The Foundations of Communication-3 |
| 11-Apr-22 | Monday | LECTURE 16- EPISCLERITIS OPS.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis | Clinical posting | Lecture – 8 IM 2.5 Define the various acute coronary syndromes and describe their evolution, natural history and outcomes | SU12.2 Describe the steps and obtain informed consent in a simulated environment. AETCOM: SU10.8 Perform basic surgical skills such as first aid including suturing and minor surgical procedures in simulated environment |
| 12-Apr-22 | Tuesday | EN4.37 Describe the clinical features, investigations and principles of management of a Ludwig's abscess | Clinical posting | Small group discussion / Case based discussion PE 10.6 Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention, RUTF | SDL FM 3.30, 31, 33. Torture, Identification of injuries caused by torture and its sequelae, management of torture survivors, Torture and Human rights, Guidelines and Protocols of National Human Rights Commission regarding torture. Should be able to demonstrate the professionalism while dealing with victims of torture and human right violations, sexual assaults- psychological consultation, rehabilitation |
| 13-Apr-22 | Wednesday | SU11.1 Describe principles of Preoperative assessment, HORIZONTAL INTEGRATION with Anaesthesiology SU11.2 Enumerate the principles of general, regional, and local Anaesthesia. | Clinical posting | RT 3.1 Describe and discuss cell cycle and cell survival curves and principles of radiobiology | DOAP FM 14.18. To examine & prepare medico-legal report of a person in police, judicial custody or referred by Court of Law and violation of human rights as requirement of NHRC, who has been brought for medical examination |
| 14-Apr-22 | Thursday | | | | |
| 15-Apr-22 | Friday | | | | |
| 16-Apr-22 | Saturday | Lecture: PE 12.1, 12.2, 12.5-12.7, 12.11- 12.20, 13.1, 13.2 Micronutrients and health: Discuss the RDA, dietary sources, their role in Health and disease, causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin A, B, C, D, E, K | Clinical posting | SEMINAR OR2.3 - Select , prescribe and communicate appropriate medications for relief of joint pain | Aetcom Module CM3.1 The Foundations of Communication-3 |
| 18-Apr-22 | Monday | LECTURE 17- SCLERITIS OPS.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis. | Clinical posting | Describe and discuss the mechanism of injury, clinical features, investigations and plan management of supra condylar fracture of humerus | Aetcom Module CM3.1 The Foundations of Communication-3 |
| 19-Apr-22 | Tuesday | EN4.2 Elicit document and present a correct history, demonstrate and describe | Clinical posting | OG21.1 Counselling for puerperium contraception; Tutorial | Lecture – 9 IM 2.13 Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram |
| 20-Apr-22 | Wednesday | SU11.4 Enumerate the indications and principles of day care General Surgery. SU11.6 Describe Principles of safe General Surgery. | Clinical posting | Lecture: PE 13.1-13.10 Micronutrients and health: Discuss the RDA, dietary sources, their role in health and disease, clinical features, causes, diagnosis and management of deficiency disorder: Iron, Iodine; National anemia and goitre control programmes | SU11.3 Demonstrate maintenance of an airway in a mannequin equivalent. HORIZONTAL INTEGRATION with Anaesthesiology SU11.5 Describe principles of providing post-operative pain relief and management of chronic pain. |
| 21-Apr-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 8 IM 2.14 Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome IM 2.15 Discuss and describe the medications used in patients with an acute coronary syndrome based on the clinical presentation | Clinical posting | RD 1.9 & 1.10 Role of Interventional Radiology in common clinical conditions Role of Emergency Radiology. | DOAP FM 6.1 - 3. Describe the methods of sample collection, preservation, labelling, dispatch of different specimens and interpretation of reports. Locard's Exchange Principle, Demonstrate professionalism while sending the biological or trace evidences to Forensic Science laboratory, specifying the required tests to be carried out, objectives of preservation of evidences sent for examination, personal discussions on interpretation of findings. CM4.1 Describe various methods of health education with their advantages and disadvantages CM4.2 (i) Describe the methods of organizing health promotion and education activities at individual, family and community settings CM4.2 (ii) Describe the method of organizing counselling sessions at individual, family and community settings (Tutorial/SGD) |
| 22-Apr-22 | Friday | OG33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer; Lecture | Clinical posting | EN4.2 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear | LECTURE 18A- LUEVITIS-1 OPS.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition |

| | | | | | | |
|-----------|-----------|--|------------------|--|---|--|
| 23-Apr-22 | Saturday | Lecture: PE 13.1-13.10 Micronutrients and health: Discuss the RDA, dietary sources, their role in health and disease, clinical features, causes, diagnosis and management of deficiency disorder: Calcium, magnesium | Clinical posting | OR2.3 - Select, prescribe and communicate appropriate medications for relief of joint pain | Aetcom Module CM3.1 The Foundations of Communication-3 | Aetcom Module CM3.1 The Foundations of Communication-3 |
| 25-Apr-22 | Monday | LECTURE 19- UVEITIS-2 OP6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis | Clinical posting | Describe and discuss the mechanism of injury, clinical features, investigations and plan management of supra condylar fracture of humerus | Small Group Discussion/Tutorial/Seminar – 9 IM 2.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG IM 2.17 Discuss and describe the indications and methods of cardiac rehabilitation | SU12.1 Enumerate the causes and consequences of malnutrition in the surgical patient. VERTICAL INTEGRATION with Pharmacology SU12.2 Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications. VERTICAL INTEGRATION with Biochemistry |
| 26-Apr-22 | Tuesday | Self directed learning | Clinical posting | OG33.4 Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's Iodine (VILI), pap smear and colposcopy; Lecture Lecture PE 14.1-14.3: Childhood Poisonings: Discuss the risk factors, clinical features, diagnosis and management of Poisoning by Lead, organophosphorous, kerosene | SDL FM 5.3 - 4. Classify common mental illnesses including post-traumatic stress disorder (PTSD). Delusions, hallucinations, illusion, lucid interval and obsessions with exemplification. Civil and criminal responsibilities of a mentally ill person. Difference between true insanity from feigned insanity | Lecture FM 5.5 -6. Delirium tremens, Indian Mental Health Act, 1987 with special reference to admission, care and discharge of a mentally ill person with recent amendments. AITO Psychiatry |
| 27-Apr-22 | Wednesday | SU12.2 Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient. VERTICAL INTEGRATION with Physiology | Clinical posting | RT 4.4 Describe and discuss different radio-isotopes and their use in cancer patients | CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases.(Typhoid, Acute Diarrhoeal disease & Cholera) Tutorial /SDG | |
| 28-Apr-22 | Thursday | Lecture – 10 IM 2.19 Discuss and describe the pathogenesis, recognition and management of complications of acute coronary syndromes including arrhythmias, shock, LV dysfunction, papillary muscle rupture and pericarditis | Clinical posting | Self directed learning | LECTURE 20A- UVEITIS -3 OP.6 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations | LECTURE 20B- UVEITIS -3 OP.6 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations |
| 29-Apr-22 | Friday | OG12.1 Hypertensive disorders of pregnancy: Define, classify and describe the etiology and pathophysiology, early detection; Lecture | Clinical posting | CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Heart Disease, Diabetes) (L) | DR 8.7 Enumerate the indications and describe the pharmacology, administration and adverse reaction of chemotherapeutics for common viral illnesses of the skin | Lecture- PS7.1 Classify and describe the magnitude and etiology of bipolar disorders. PS7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders. |
| 30-Apr-22 | Saturday | Lecture / Tutorial PE 14.1-14.3: Childhood Poisonings: Discuss the risk factors, clinical features, diagnosis and management of Poisoning by paracetamol, oxygen toxicity | Clinical posting | LECTURE OR2.4- Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture of humerus with emphasis on 1 hr neurovascular deficit 2 hrs | | |
| 2-May-22 | Monday | LECTURE 21- UVEITIS-4 OP6.4 Describe and distinguish hyphema and hypopyon | Clinical posting | OG12.1 Hypertensive disorders of pregnancy: investigations; principles of management; Tutorial | Small Group Discussion/Tutorial/Seminar – 10 IM 2.20 Discuss and describe the assessment and relief of pain in acute coronary syndromes IM 2.23 Describe and discuss the indications for nitrates, anti platelet agents, gpiib IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes | SU13.1 Describe the immunological basis of organ transplantation. SU13.2 Discuss the principles of immunosuppressive therapy. Enumerate indications, describe surgical principles, management of organ transplantation. VERTICAL INTEGRATION with Microbiology Pharmacology |
| 3-May-22 | Tuesday | 3-May-22 Tuesday Id holiday | Clinical posting | | | |
| 4-May-22 | Wednesday | SU13.3 Discuss the legal and ethical issues concerning organ donation. SU13.4 Counsel patients and relatives on organ donation in a simulated environment. AETCOM | Clinical posting | CT2.1 Define and classify obstructive airway disease CI2.2 Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease | CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases.(Polio)Tutorial /SDG | |
| 5-May-22 | Thursday | Lecture – 11 IM 1.1 Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including: rheumatic/ valvular, ischemic, hypertrophic inflammatory IM 1.2 Describe and discuss the genetic basis of some forms of heart failure | Clinical posting | Self directed learning | LECTURE 22A- ANGLE OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates | LECTURE 22B- ANGLE OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates |
| 6-May-22 | Friday | OG12.1 Examples: Diagnosis, management, complications; Lecture | Clinical posting | CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Cancer- Breast Cancer, Cervical Cancer etc) (L) | DR 9.1 Classify describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy | Lecture- PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders. PS7.4 Describe the treatment; of bipolar disorders including behavioural and pharmacologic therapy. PS7.7 Enumerate the appropriate conditions for specialist referral in patients with bipolar disorders. |
| 7-May-22 | Saturday | | | | | |
| 9-May-22 | Monday | | | | | |
| 10-May-22 | Tuesday | | | | | |

Summative Assessment 1

Handwritten notes in blue ink on the left margin, including dates like 2/1/2/21 and 2/1/1/21, and illegible scribbles.

Large handwritten signatures and notes at the bottom of the page, including names like 'Ravi', 'Anand', 'Jugal', 'Ravi', 'Jugal', and 'Ravi'.

| 13-Jun-22 | Monday |
| 14-Jun-22 | Tuesday |
| 15-Jun-22 | Wednesday |

Small Group Discussion/Tutorial/Seminar – 12
 IM 1.6 Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations
 IM 1.7 Enumerate, describe and discuss the factors that exacerbate heart failure including ischemia, arrhythmias anemia thyrotoxicosis, dietary factors drugs etc.

Clinical Posting

EN4.21 Describe the clinical features investigations and principles of management of Tinnitus

LECTURE 25A- UVEITIS MANAGEMENT
 OP6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea

LECTURE 25B- UVEITIS MANAGEMENT)
 OP6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea

Clinical Posting

CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Blindness) (L)

OR.10-4 Describe the prevention of congenital syphilis

Lecture- PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders. PS8.4 Describe the treatment of anxiety disorders including behavioural and pharmacologic therapy. PS8.7 Enumerate the appropriate conditions for specialist referral in anxiety disorder.

Lecture
 PE 20.1, 20.2, 20.10 Essential newborn care, common variants and health problems in newborn, assessment in postnatal wards, normal and high risk neonate, hemorrhagic disease of newborn

Clinical Posting

LECTURE OR2.5 - Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigations and principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury

Aetcom Module CM3.1 The Foundations of Communication-3

Aetcom Module CM3.1 The Foundations of Communication-3

LECTURE 26- GLAUCOMA MANAGEMENT
 OP6.9 Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions

Clinical Posting

OG12.3 Diabetes in pregnancy: Investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications; Tutorial

Small Group Discussion/Tutorial/Seminar – 13
 IM 1.8 Describe and discuss the pathogenesis and development of common arrhythmias involved in heart failure particularly atrial fibrillation

US16.1 Minimally Invasive General Surgery: Describe indications, advantages and disadvantages of Minimally Invasive General Surgery

EN4.77 Filic document and present a correct history demonstrate and describe The clinical features, choose the correct investigations and describe the principles of management of Allergic Rhinitis

Clinical Posting

Lecture
 PE 20.12- 20.14 Neonatal hypoglycemia, hypocalcemia, hypothermia

SGD FM 9.1. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Caustics inorganic – sulphuric, nitric, and hydrochloric acids; Organic Carbolic Acid (phenol), Oxalic and acetylsalicylic acids

SGD FM 9.5. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Organophosphates, Carbamates, Organochlorines, Pyrethroids, Paraquat, Aluminium and Zinc phosphide

US17.1 Describe the Principles of FIRST AID SU17.2 Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment. HORIZONTAL INTEGRATION with Anaesthesiology SU17.3 Describe the Principles in management of mass casualties

Clinical Posting

AS8.1,8.2,8.3,8.4,8.5: Lecture: Basics of pain (definition/ assessment methods/ management), palliative care and End of life support

CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases.(Rabies) Tutorial/SGD

Lecture – 14
 IM 1.23 Describe, prescribe and communicate non pharmacologic management of heart failure including sodium restriction, physical activity and limitations
 IM 1.24 Describe and discuss the pharmacology of drugs including indications, contraindications In the management of heart failure including diuretics, ACE inhibitors, Beta blockers, aldosterone antagonists and cardiac glycosides

Clinical Posting

EN4.44 Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord

LECTURE 27A- GLAUCOMA 2
 OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment

LECTURE 27B- GLAUCOMA 2
 OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment

OG12.4 Heart diseases in pregnancy: Define, classify and describe the etiology, pathophysiology, diagnosis; Lecture

Clinical Posting

CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case (NPCDCS) (L)

DR 10.8 Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the nonsyphilitic sexually transmitted diseases (chancroid, Donovanosis and LGV)

Lecture- PS9.1 Enumerate and describe the magnitude and etiology of stress related disorders. PS9.2 Enumerate elicit describe and document clinical features in patients with stress related disorders. PS9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy.

Lecture
 PE 20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia

Clinical Posting

LECTURE OR2.5 - Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigations and principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury

Aetcom Module CM3.1 The Foundations of Communication-3

Aetcom Module CM3.1 The Foundations of Communication-3

LECTURE 28- LENS ANATOMY
 OP7.1 Describe the surgical anatomy and the metabolism of the lens

Clinical Posting

OG12.4 Heart diseases in pregnancy: Investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications, Tutorial

Small Group Discussion/Tutorial/Seminar – 14
 IM 1.25 Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation

US17.4 Describe Pathophysiology, mechanism of head injuries; US17.5 Describe clinical features for neurological assessment and GCS in head injuries; US17.6 Choose appropriate investigations and discuss the principles of management of head injuries

EN2.11 Describe and identify by clinical examination malignant & pre- malignant ENT diseases

Clinical Posting

Lecture
 PE 29.11, 29.16-29.27 Approach to low birth weight newborn, neonatal sepsis, perinatal infections

SGD FM 9.4. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ethanol, methanol, ethylene glycol

DOAP FM 14.16. To examine & prepare medico-legal report of drunk person.

US17.7 Describe the clinical features of soft tissue injuries; Choose appropriate investigations and discuss the principles of management

Clinical Posting

AS2.1.6.1: SGD: BLS and Crash Cart

SDL CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases.(ARI, Influenza, Covid-19)

|-----------|-----------|---|------------------|--|--|---|
| 16-Jun-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 15 IM 1.28 Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and acyanotic heart disease IM 1.29 Elicit document and present an appropriate history, demonstrate correctly general examination, relevant clinical findings and formulate document and present a management plan for an adult patient presenting with a common form of congenital heart disease | Clinical Posting | EN2.11 Describe and identify by clinical examination malignant & pre-malignant ENT diseases | LECTURE 29A- CATARACT OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract | LECTURE 29B- CATARACT OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract |
| 17-Jun-22 | Friday | OG12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management in pregnancy of urinary tract infections; Lecture | Clinical Posting | CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Accidents) (L) | DR 10.9 Describe the syndromic approach to ulcerative sexually transmitted disease | Lecture- PS10.1 Enumerate and describe the magnitude and etiology of somatoform, dissociative and conversion disorders. PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform, dissociative and conversion disorders. PS10.3 Enumerate and describe the indications and interpret laboratory and other tests used in somatoform, dissociative and conversion disorders. PS10.4 Describe the treatment of somatoform disorders including behavioural, psychosocial and pharmacologic therapy. |
| 18-Jun-22 | Saturday | Lecture Approach to neonatal sepsis PE 20.15 | Clinical Posting | OR2.5 - Describe and discuss the aetio-pathogenesis, clinical features, mechanism of injury, investigations and principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury OG12.6 Liver disease in pregnancy (Hepatitis): Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management; Lecture; Horizontal integration with General medicine | Self-Directed Learning 2 Various types of Shock – causes and clinical manifestation | SUIT 8 Describe the pathophysiology of chest injuries. SUIT 9 Describe the clinical features and principles of management of chest injuries. SUIT 10 Describe the clinical features, management and management of pneumothorax, hemothorax and flail chest in simulated environment. HORIZONTAL INTEGRATION: with Anesthesiology. |
| 20-Jun-22 | Monday | LECTURE 30- CATARACT MANAGEMENT 1 OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment | Clinical Posting | Lecture FE 20.17 Approach to perinatal infections | SGD FM 9.3. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Arsenic, lead, mercury, copper, iron, cadmium and thallium | SUIT 8 Describe the pathophysiology of chest injuries. SUIT 9 Describe the clinical features and principles of management of chest injuries. SUIT 10 Describe the clinical features, management and management of pneumothorax, hemothorax and flail chest in simulated environment. HORIZONTAL INTEGRATION: with Anesthesiology. |
| 21-Jun-22 | Tuesday | EN4.28 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Vasomotor Rhinitis | Clinical Posting | AS2.2,6.1 : SGD: ACLS | CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases.(Dengue, Filaria, Malaria) Tutorial/SGD | SGD FM 9.2. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Phosphorus, Iodine, Barium |
| 22-Jun-22 | Wednesday | SUI18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. | Clinical Posting | EN4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (Benign) | LECTURE 31A-CATARACT MANAGEMENT 2 OP7.5 To participate in the team for cataract surgery | LECTURE 31B-CATARACT MANAGEMENT 2 OP7.5 To participate in the team for cataract surgery |
| 23-Jun-22 | Thursday | Lecture – 15 IM 3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiologies depending on the setting and immune status of the host OG12.6 Liver disease in pregnancy (IHCP): Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management; Lecture | Clinical Posting | CM 12.1 Define and describe the concept of Geriatric service CM12.2 Describe health problems of aged populations (L) | DR 10.11 Describe the etiology, diagnostic and clinical features and management of vaginal discharge | Lecture- PS11.1 Enumerate and describe the magnitude and etiology of personality disorders. PS11.2 Enumerate, elicit, describe and document clinical features in patients with personality disorders PS11.4 Describe the treatment of personality disorders including behavioural, psychosocial and pharmacologic therapy. |
| 24-Jun-22 | Friday | Lecture Common surgical conditions in newborn PE 20.20 | Clinical Posting | SEMINAR OR2.6 - Describe and discuss the aetio-pathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius | Small Group Discussion/Tutorial/Seminar – 16 IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia IM 3.15 Describe and enumerate the Indications for hospitalisation in patients with pneumonia | SGD 8.2 Classify skin tumors Differentiate different skin tumors and discuss their management. SUIT 3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. |
| 25-Jun-22 | Saturday | Lecture Common surgical conditions in newborn PE 20.20 | Clinical Posting | OG12.6 Liver disease in pregnancy (Acute Fatty Liver & HELLP): Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management; Lecture | | |
| 27-Jun-22 | Monday | LECTURE 32-CATARACT MANAGEMENT 3 OP7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery. | Clinical Posting | | | |

EN4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (Malignant)

SG19.3 Describe the etiology and classification of cleft lip and palate. VERTICAL INTEGRATION with Anatomy SG18.2 Describe the Processes of reconstruction of cleft lip and palate

Small Group Discussion/Tutorial/Seminar – 17
IM 3.16 Describe and enumerate the indications for Isolation and barrier nursing in patients with pneumonia
IM 3.17 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation
IM 3.19 Discuss, describe, enumerate the Indications and communicate to patients on pneumococcal and influenza vaccines

OG12.6 Liver disease in pregnancy (cirrhosis & portal hypertension); Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management; Lecture; Horizontal integration with General Medicine

Integrated lecture with community medicine PE 19.1, 19.2, 19.4 Epidemiology of Vaccine Preventable disease, UIP, NIS, Cold chain, Immunisation in special situations, safe immunisation practices

INTEGRATED LECTURE- RETINA AND OPTIC NERVE
PY10.1B Describe and discuss the physiological basis of lesion in visual pathway.
AN30.5 Explain effect of pituitary tumours on visual pathway

EN4.31 Describe the clinical features, investigations and principles of management of trauma to the face & neck

SG21.3 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands. SG21.7 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands

Lecture – 16
IM 14.1 Define and measure obesity as it relates to the Indian population
IM 14.2 Describe and discuss the aetiology of obesity including modifiable and non-modifiable risk factors and secondary causes
IM 14.3 Describe and discuss the monogenic forms of obesity

OG12.7 HIV in Pregnancy: EID, Describe and discuss Screening and management of baby born to HIV positive mother; Seminar

Small group discussion/ tutorial
PE 19.5 Discuss Immunization in special situations – HIV positive children, Immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, travellers

Clinical Posting

Lecture
PE 20.15 Discuss the etiology, clinical features and management of Neonatal seizures

Clinical Posting

AS9.1.9.3: SGD:IV access and IV Fluid therapy

Clinical Posting

EN4.30 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Epistaxis

Clinical Posting

CM12.3 Describe the prevention of health problems of aged population
CM12.4 Describe National program for elderly (L)

Clinical Posting

LECTURE OR2.7 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability

Clinical Posting

OG12.7 HIV in Pregnancy: PPTCT, Describe and discuss Screening, risk factors, management of mother; Lecture

Clinical Posting

Small group discussion/ Tutorial
PE 19.3 Vaccine descriptions with regard to classification of vaccines, strains used, dose, route, schedule, risks, benefits and side effects, indications and contraindications

Clinical Posting

R.D 1.12 & 1.13 Effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure the components of the PC & PNDT Act and its medicolegal implications.

Clinical Posting

EN4.32 Describe the clinical features, investigations and principles of management of nasopharyngeal Angioliobroma

Clinical Posting

CM15.1 Define and describe the concept of mental Health CM15.2 Describe warning signals of mental health disorder (L)

Clinical Posting

LECTURE OR2.7 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability

SGD FM 9.6. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ammonia, carbon monoxide, hydrogen cyanide & derivatives, methyl isocyanate, tear (riot control) gases

SGD FM 10.1. Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: I. Antipyretics – Paracetamol, Salicylates II. Anti-infectives (Common antibiotics – an overview) III. Neuropsychotoxicology Barbiturates, benzodiazepines phenytoin, lithium, haloperidol, neuroleptics, tricyclics IV. Narcotic Analgesics, Anaesthetics, and Muscle Relaxants V. Cardiovascular Toxicology Cardiotoxic plants – oleander, odollam, aconite, digitalis VI. Gastro- Intestinal and Endocrinal Drugs – Insulin

CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (I.E., Chickungunya, Kala Azar, NVBDCP) Tutorial/SGD

LECTURE 33A- CATARACT MISC.
AN41.2 Describe the anatomical aspects of cataract, glaucoma & central retinal artery occlusion

LECTURE 33B- CATARACT MISC
AN41.2 Describe the anatomical aspects of cataract, glaucoma & central retinal artery occlusion

SG 11.1 Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections

Lecture- PS12.1 Enumerate and describe the magnitude and etiology of psychosomatic disorders. PS12.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders. PS12.4 Describe the treatment of psychosomatic disorders including behavioural psychosocial and pharmacologic therapy.

Self-Directed Learning 3
Approach to a patient with sudden onset breathlessness

SG20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer. VERTICAL INTEGRATION with ENT. SG20.2 Enumerate the appropriate investigations and discuss the Principles of treatment.

DOAP FM 14.2. Demonstrate the correct technique of clinical examination in a suspected case of poisoning & prepare medico-legal report in a simulated/ supervised environment

DOAP FM 14.3. Assist and demonstrate the proper technique in collecting, preserving and dispatch of the exhibits in a suspected case of poisoning, along with clinical examination

CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Tuberculosis include NTEP) Tutorial/SGD

LECTURE 34A-RETINA AND OPTIC NERVE
OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina

LECTURE 34B-RETINA AND OPTIC NERVE
OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina

DR 12.1 Describe the aetiopathogenesis of eczema

Lecture- PS13.1 Enumerate and describe the magnitude and etiology of psychosexual and gender identity disorders .PS13.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of psychosexual and gender identity disorders. PS13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural, psychosocial and pharmacologic therapy

Handwritten notes and signatures on the left side of the page, including 'Aparajit 21/12/21', 'Munni 21/12/21', and 'for records'.

Handwritten notes and signatures at the bottom left, including 'for records' and 'Aparajit Dehal'.

Handwritten notes and signatures at the bottom center, including 'Kamran' and 'Dr. Kamran'.

Handwritten signatures and initials at the bottom right of the page.

| 12-Jul-22 | Tuesday |
| 13-Jul-22 | Wednesday |
| 14-Jul-22 | Thursday |
| 15-Jul-22 | Friday |
| 16-Jul-22 | Saturday |
| 18-Jul-22 | Monday |
| 19-Jul-22 | Tuesday |
| 20-Jul-22 | Wednesday |
| 21-Jul-22 | Thursday |
| 22-Jul-22 | Friday |
| 23-Jul-22 | Saturday |

LECTURE 35- RETINA AND OPTIC NERVE
OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)

Clinical Posting

OG12.8 Isommunization In pregnancy:
Describe the mechanism, prophylaxis, fetal complications, diagnosis and management

Small Group Discussion/Tutorial/Seminar – 18
IM 14.4 Describe and discuss the impact of environmental factors including eating habits, food, work, environment and physical activity on the incidence of obesity
IM 14.5 Describe and discuss the natural history of obesity and its complications
DOAP FM 14.1 - 22

SU22.3 Describe the applied anatomy and physiology of thyroid
VERTICAL INTEGRATION with Anatomy
SU22.4 Describe the clinical features, classification and management of thyroid cancer

DOAP FM 14.1 - 22

EN4.23 Describe the clinical features, investigations and principles of management of DNS
EN4.24 Enumerate the indications observe and describe the steps in a septoplasty

Clinical Posting

Lecture/ small group discussion
PE 19.6: Enumerate available newer vaccines and their indications including pentavalent pneumococcal, rotavirus, JE, typhoid IPV & HPV

CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for communicable diseases. (Leprosy include NLEP) Tutorial/SGD

SU22.2 Describe the etio-pathogenesis of thyroid swellings - **VERTICAL INTEGRATION** with Pathology **SU22.3** Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management

Clinical Posting

RT 3.2
Describe and discuss synergism of radiation and chemotherapy
RT 4.5
Describe and discuss role of radiation in management of common malignancies in India
RT 4.6 Describe and discuss radiotherapy for benign diseases

LECTURE 36A- RETINA AND OPTIC NERVE
OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam.

LECTURE 36B- RETINA AND OPTIC NERVE
OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam.

Small Group Discussion/Tutorial/Seminar – 19
IM 14.10 Describe the indications and interpret the results of tests for secondary causes of obesity
IM 14.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity

Clinical Posting

EN4.23 Describe the clinical features, investigations and principles of management of DNS
EN4.24 Enumerate the indications observe and describe the steps in a septoplasty

DR 12.7 Classify and grade eczema **DR 12.4** Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of eczema

Lecture- **PS14.1** Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence. **PS14.2** Enumerate, elicit, describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence

OG8.1 Antenatal care- screening for high-risk factors, Calculation of EDD, assessment of period of gestation; Seminar

Clinical Posting

CM15.3 Describe National Mental Health program & National Mental Health bill (I)

Integrated lecture with community medicine:
PE 17.1, 18.1, 18.2
State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS and RCH.

Clinical Posting

OR2.7 - Describe and discuss the etio-pathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability

Small Group Discussion/Tutorial/Seminar – 20
IM 14.14 Describe and enumerate the indications and side effects of bariatric Surgery
IM 14.15 Describe and enumerate and educate patients, health care workers and the public on measures to prevent obesity and promote a healthy lifestyle
DOAP FM 14.1 - 22

SU22.5 Describe the applied anatomy of parathyroid. **VERTICAL INTEGRATION** with Anatomy **SU22.5** Describe and discuss the clinical features of Hypo- and hyperparathyroidism and the principles of their management. **HORIZONTAL INTEGRATION** with Medicine

DOAP FM 14.1 - 22

LECTURE 37- RETINAL AND OPTIC NERVE
OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina.

Clinical Posting

OG21.1 Natural & Barrier methods of contraception, Seminar
Integration with community medicine Debate
PE 17.2 Analyse the outcomes and appraise the monitoring and evaluation of NHM
Self Directed Learning (SDL) Normal Chest X ray Interpretation

CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory test at the primary care level for non communicable diseases. (Cancer) Tutorial/SGD

EN4.34 Describe the clinical features investigations and principles of management of Tumors of Maxilla

Clinical Posting

OG21.1 Natural & Barrier methods of contraception, Seminar
Integration with community medicine Debate
PE 17.2 Analyse the outcomes and appraise the monitoring and evaluation of NHM
Self Directed Learning (SDL) Normal Chest X ray Interpretation

LECTURE 38A-RETINA AND OPTIC NERVE
OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway.
DR 12.3 Define erythroderma. Enumerate and identify the causes of erythroderma. Discuss the treatment.

LECTURE 38B-RETINA AND OPTIC NERVE
OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway

Lecture- **PS14.3** Describe the treatment of psychiatric disorders occurring in childhood and adolescence including behavioural, psychosocial and pharmacologic therapy. **PS14.4** Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment.

SU23.1 Describe the applied anatomy of adrenal glands
VERTICAL INTEGRATION with Anatomy **SU23.3** Describe the clinical features, principles of investigation and management of adrenal tumours

Clinical Posting

EN4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy

PE 23.12, 34.8 Integrated lecture with radiology Interpretation of X ray KUB, X Ray Chest including Myilm shadow, cardiomegaly, foreign body, X Ray paranasal sinuses

Clinical Posting

CM10.1 Describe the current status of Reproductive Maternal new born child health + MCH Indicators (I) AITO (Paediatrics & O&G)

LECTURE OR2.8 - Describe and discuss the etio-pathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient

Clinical Posting

Handwritten notes: "Hans 21/12/21" and "Www 21/12/21" with a signature.

Handwritten signatures and notes at the bottom of the page, including "veranah", "Anjali", "Sahar", "Kamran", "hu", "uz", "hng", "SUN", "Jugai", "an", "cu".

| | | | | | | |
|-----------|-----------------------------|--|------------------|---|---|---|
| 25-Jul-22 | Monday | INTEGRATED LECTURE-RETINA AND OPTIC NERVE PY10.18 Describe and discuss the physiological basis of lesion in visual pathway. AN30.5 Exolain effect of pituitary tumours on visual pathways | Clinical Posting | OG21.1 Hormonal contraception: Injectable, ring, patch, Implants, Intrauterine devices; Seminar | Small Group Discussion/Tutorial/Seminar – 22 IM 20.3 Describe the initial approach to the stabilisation of the patient who presents with snake bite IM 20.7 Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti-snake venom DOAP FM 14.1 - 22 | SU22.2 Describe the epidemiology, clinical features and principles of management of disorders of lateral globe: VERTICAL INTEGRATION with Medicine |
| 26-Jul-22 | Tuesday | EN4.45 Elicit the clinical features, investigations and principles of management of Vocal cord palsy | Clinical Posting | Integrated session with respiratory medicine PE 34.1-34.4 Childhood tuberculosis | | |
| 27-Jul-22 | Wednesday | SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatic VERTICAL INTEGRATION with Anatomy. SU24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumours. | Clinical Posting | RT 4.7 Counsel patients regarding acute and late effects of radiation and supportive care RT 5.1 Describe and discuss cancer prevention, screening, vaccination and cancer registry | CM8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Obesity, diabetes, hypertension etc including NPCDCS) Tutorial/SGD | |
| 28-Jul-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 23 IM 20.8 Describe the diagnosis, initial approach stabilisation and therapy of scorpion envenomation | Clinical Posting | | INTEGRATED LECTURE A- ELECTROPHYSIOLOGY PY10.19 Describe and discuss auditory & visual evoke potentials | INTEGRATED LECTURE B- ELECTROPHYSIOLOGY PY10.19 Describe and discuss auditory & visual evoke potentials |
| 29-Jul-22 | Friday | OG21.1 Copper Intrauterine devices; Seminar | Clinical Posting | CM 10.7 Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects CM 9.5& 9.6 Describe the methods of population control & Describe the National Population Policy (L) | DR 14.1 Describe the etiology, pathogenesis and clinical precipitating features and classification of Lericarp and angiodema | Lectures- PS15.1 Describe the aetiology and magnitude of mental retardation. PS15.3 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retardation. PS15.4 Describe the psychosocial interventions and treatment used in mental retardation. |
| 30-Jul-22 | Saturday | PE 28.19, 31.5, 31.6 Integrated session with respiratory medicine Describe the aetio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children and criteria for referral | Clinical Posting | LECTURE OR2.8 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient | | |
| 1-Aug-22 | Monday | INTEGRATED LECTURE-VISUAL FIELD PY10.20 Demonstrate testing of visual acuity, colour and field of vision in strabismic/ Acquired amblyopia | Clinical Posting | OG21.1 Nonhormonal and emergency contraception; Seminar | Small Group Discussion/Tutorial/Seminar – 24 IM 20.9 Describe the diagnosis initial approach stabilisation and therapy of bee sting allergy | SU24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumour. |
| 2-Aug-22 | Tuesday | EN4.25 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Nasal Polyps | Clinical Posting | PE 27.10, 31.11 Demonstration session Observe administration of Oxygen delivery methods and Nebulisation | DOAP FM 14.1 - 22 | DOAP FM 14.1 - 22 |
| 3-Aug-22 | Wednesday | SU25.1 Describe related anatomy and appropriate investigations for breast disease. VERTICAL INTEGRATION with Anatomy. SU25.2 Describe the aetiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast | Clinical Posting | CT2.14 Enumerate the Indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph | CM 8.2 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (Blindness) Tutorial/SGD | |
| 4-Aug-22 | Thursday | Self-Directed Learning 4 Anaphylaxis | Clinical Posting | EN4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Nasal Polyps | LECTURE 39A-COMMUNITY OPHTHALMOLOGY OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020). | LECTURE 39B-COMMUNITY OPHTHALMOLOGY OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020). |
| 5-Aug-22 | Friday | OG21.1 Male contraception, Male and Female sterilization; Seminar | Clinical Posting | CM 10.8 Describe the physiology, clinical management and principles of adolescent health including ARSH (L) | DR 15.3 Enumerate the indications and describe the pharmacology, indications and adverse reactions of topical and systemic drugs used in treatment of pyoderma | SGD- PS16.1 Enumerate and describe common psychiatric disorders in the elderly including dementia, depression and psychosis . PS16.3 Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy |
| 6-Aug-22 | Saturday | PE 23.14 Skill session Interpretation of Pediatric ECG | Clinical Posting | OR2.8 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient | | |
| 8-Aug-22 | Monday | INTEGRATED LECTURE Anatomy and Development of the Eye AN41.1 Describe & demonstrate parts and layers of the eyeball | Clinical Posting | OG33.3 Screening for cervical cancer; Seminar | Lecture – 17 IM 21.1 Describe the initial approach to the stabilisation of the patient who presents with poisoning | SU25.3 Describe the aetiopathogenesis, clinical features, investigations and principles of treatment of benign and malignant tumours of breast. VERTICAL INTEGRATION with Radiodiagnosis. SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast. SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or enuavian |
| 9-Aug-22 | Tuesday Muharram holiday | | Clinical Posting | | | |

|-----------|-----------|--|------------------|---|---|
| 10-Aug-22 | Wednesday | SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart disease. SU26.3 Describe the clinical features of mediastinal diseases and the principles of management. | Clinical Posting | CT2.16 Discuss and describe therapies for OAD including bronchodilators, leukotriene inhibitors, mast cell stabilisers, theophylline, inhaled and systemic steroids, oxygen and immunotherapy | CM11.1 Enumerate and describe the presenting features of patients with occupational illness including agriculture CM 11.2 Describe the role, benefits and functioning of the employees late insurance scheme 11.3 Enumerate and describe specific occupational health hazards, their risk factors and preventive measures CM 11.4 Describe the principles of ergonomics in health preservation CM 11.5 Describe occupational disorders of health professionals and their prevention & management (Tutorial/SGD) |
| 11-Aug-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 25 IM 21.2 Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and approach to therapy | Clinical Posting | EN4.35 Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx | REVISION CLASS Q&A |
| 12-Aug-22 | Friday | OG12.1 Hypertensive disorders of pregnancy: Seminar OG12.1 Hypertensive disorders of pregnancy: Case Based Discussion | Clinical Posting | CM 10.9 Describe and discuss gender issues and women empowerment (L) | OR 17.1 Enumerate and identify the cutaneous findings in vitamin A deficiency |
| 13-Aug-22 | Saturday | Integrated session with Obst and Gynae PE 32.1-13 Discuss the genetic basis, risk factors, complications, prenatal diagnosis, clinical features, interpretation of karyotype, management and genetic counselling in Down's Syndrome, Turner syndrome, Klinefelter syndrome | Clinical Posting | Self Directed Learning OR 2.9 - Describe and discuss the mechanism of injury, clinical features, investigations and principle of management of acetabular fracture | Lecture- PS17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, Deliberate Self Harm, Violent behaviour). PS17.2 Describe the initial stabilisation and management of psychiatric emergencies PS17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies |
| 15-Aug-22 | Monday | | | | |
| 16-Aug-22 | Tuesday | Self directed learning | Clinical Posting | Small group discussion/ tutorial PE 25.1 Discuss the etio-pathogenesis, clinical presentation and management of Malabsorption in Children and its causes including celiac disease | SGD FM 11.1. Snake bite, scorpion sting, bee and wasp sting and spider bite |
| 17-Aug-22 | Wednesday | SU26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management. | Clinical Posting | CT2.17 Describe and discuss the indications for vaccinations in OAD CT2.18 Develop a therapeutic plan including use of bronchodilators and inhaled corticosteroids | CM10.1 Describe the current status of Reproductive, maternal, newborn and Child Health CM10.4 Describe the reproductive, maternal, newborn & child health (RMCH): child survival and safe motherhood interventions CM 10.7 Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects CM 10.8 Describe the physiology, clinical management and principles of adolescent health including ARSH (Tutorial/SGD) |
| 18-Aug-22 | Thursday | Small Group Discussion/Tutorial/Seminar – 26 IM 21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therapy | Clinical Posting | Self directed learning | Self directed learning |
| 19-Aug-22 | Friday | | | | |
| 20-Aug-22 | Saturday | Lecture PE 26.1-26.2 Discuss the etio-pathogenesis, clinical features and management of acute hepatitis and fulminant hepatic failure in children | Clinical Posting | Self Directed Learning OR 2.9 - Describe and discuss the mechanism of injury, clinical features, investigations and principle of management of acetabular fracture | |
| 22-Aug-22 | Monday | LECTURE 40-OCULAR INJURY OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management, and indication for referral in a patient with ocular injury. | Clinical Posting | OG12.1 Eclampsia: management; Self directed learning | Small Group Discussion/Tutorial/Seminar – 27 IM 21.4 Enumerate the commonly observed drug overdose in your area and describe their toxicology, clinical features, prognosis and approach to therapy |
| 23-Aug-22 | Tuesday | Self directed learning | Clinical Posting | Lecture PE 26.3-26.4 Discuss the etio-pathogenesis, clinical features and management of chronic liver disease and portal hypertension in children | SGD FM 13.1 - 2. Toxic pollution of environment, its medico-legal aspects & toxic hazards of occupation and industry. Medico-legal aspects of poisoning in Workmen's Compensation Act |
| 24-Aug-22 | Wednesday | | | | DOAP FM 14.1? To identify & draw medico-legal inference from common poisons e.g. datura, castor, cannabis, opium, arsenite copper sulphate, pesticides compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco |
| 25-Aug-22 | Thursday | | | | |

Summative Assessment 2

Session Break

Handwritten notes: "I have 2/12/21" and a signature.

Handwritten signature in blue ink.

Handwritten signatures and notes at the bottom of the page, including "rehan", "Angela", "Dahal", "Lawyer", "Judge", and a circular stamp.

| | | | | | | |
|-----------|-----------|---|------------------|--|---|--|
| 10-Sep-22 | Saturday | | | | | |
| 12-Sep-22 | Monday | DOAP-OCULAR MUSCLES OP9.1 Demonstrate the correct technique to examine extra ocularmovements (Unicocular & Binocular). | Clinical posting | OG12.2 Anemia in pregnancy; Seminar; Self Directed Learning | Small Group Discussion/Tutorial/Seminar – 28 IM 21.6 Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning DOAP FM 14.1 - 22 | SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders. SU27.4 Describe the types of genotype and principles of amputation |
| 13-Sep-22 | Tuesday | EN4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Larynx. | Clinical posting | Integrated session with ENT PE 28.1-28.7 Discuss the etio-pathogenesis, clinical features and management of Naso pharyngitis, pharyngotonsillitis, acute otitis media, epiglottitis, acute laryngotracheobronchitis and approach to stridor | | FORMATIVE ASSESSMENT |
| 14-Sep-22 | Wednesday | SU27.5 Describe the applied anatomy of venous system of lower limb. SU27.6 Describe pathophysiology, clinical features, investigations and principles of management of DVT and Varicose veins | Clinical posting | AS9.2: Lecture: Central venous access: indications, sites, techniques, complications, central venous pressure and waveform monitoring | CM10.5 Describe Universal Immunization program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs (Tutorial/SGD) | |
| 15-Sep-22 | Thursday | Lecture – 18 IM 17.1 Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache IM 17.10 Enumerate the indications for emergency care admission and immediate supportive care in patients with headache | Clinical posting | EN4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Hypopharynx | LECTURE 41A-STRABISMUS OP9.2 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus. OP1.5 Define, enumerate the types and the mechanism by which strabismus leads to amblyopia | LECTURE 41B-STRABISMUS OP9.2 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus. OP1.5 Define, enumerate the types and the mechanism by which strabismus leads to amblyopia |
| 16-Sep-22 | Friday | OG12.2 Anemia in pregnancy: Case Based Discussion | Clinical posting | CM 16.1 Define and describe the concept of Health planning CM 16.2 Describe planning cycle(I) | DR 18.1.1 Enumerate the cutaneous features of Type 2 diabetes DR 18.2 Enumerate the cutaneous features of Hypo/hyper-thyroidism | Lecture- PS18.1 Enumerate the indications and describe the pharmacology, dose and side effects of commonly use drugs in psychiatric disorders. |
| 17-Sep-22 | Saturday | PE 29.1-29.5 Integrated session with pathology Discuss the etio-pathogenesis, clinical features, classification and approach to a child with nutritional and hemolytic anaemia | Clinical posting | LECTURE OR2.10 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur OG12.3 Diabetes in pregnancy; Seminar | | |
| 19-Sep-22 | Monday | LECTURE 42-PHARMACOLOGY OF THE EYE 1 PH1.58 Describe drugs used in Ocular disorders- CORNEA | Clinical posting | | Lecture – 19 IM 17.3 Classify migraine and describe the distinguishing features between classical and non-classical forms of migraine IM 17.11 Describe the indications, pharmacology, dose, side effects of abortive therapy in migraine IM 17.12 Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine DOAP FM 14.1 - 22 | SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymphoedema, lymphangitis and Lymphoma. SU27.8 Demonstrate the correct activation of the lymphatic system |
| 20-Sep-22 | Tuesday | EN4.15 Describe the clinical features, investigations and principles of management of Noise Induced Hearing Loss | Clinical posting | Lecture PE 29.6 - 29.9 Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP), hemophilia, ALL, lymphoma | | SGD FM 1.1- 1.11 |
| 21-Sep-22 | Wednesday | SU28.1 Describe pathophysiology, clinical features investigations and principles of management of Hernias SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernia. | Clinical posting | AS.1,7,2,7,4,7,5: Lecture: ICU care: functions of ICU, admission and discharge criteria, monitoring in ICU, basics of mechanical ventilation | CM13.1-13.4 Disaster Management , Disaster management cycle,NDMA (Tutorial/SGD) | |
| 22-Sep-22 | Thursday | Lecture – 20 IM 17.7 Enumerate the indications and describe the findings in the CSF in patients with meningitis IM 17.13 Describe the pharmacology, dose, adverse reactions and regimens of drugs used in the treatment of bacterial, tubercular and viral meningitis | Clinical posting | EN4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Acute & Chronic Tonsillitis | LECTURE 43A-PHARMACOLOGY OF THE EYE 2 PH1.58 Describe drugs used in Ocular disorders- GLAUCOMA | LECTURE 43B-PHARMACOLOGY OF THE EYE 2 PH1.58 Describe drugs used in Ocular disorders- GLAUCOMA |
| 23-Sep-22 | Friday | OG12.3 Diabetes in pregnancy: Case Based Discussion | Clinical posting | CM 16.4 Describe health planning in India and National policies related to health planning and Health system in India (I) | DR 17.3 Enumerate and describe the various changes in Vitamin C deficiency | Lecture- FS18.2 Enumerate the indications for modified electroconvulsive therapy. |
| 24-Sep-22 | Saturday | Tutorial/ Small group discussion: PE 34.14-34.15 Enumerate the common causes of fever and discuss the etio-pathogenesis, clinical features, complications and management of fever in children, exanthematous illnesses like Measles, Mumps, Rubella & Chicken pox. | Clinical posting | LECTURE OR2.10 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur | | |
| 26-Sep-22 | Monday | LECTURE 44 PH1.58 Describe drugs used in Ocular disorders- MISC | Clinical posting | OG12.4 Heart diseases in pregnancy: seminar | Lecture – 21 IM 24.1 Describe and discuss the epidemiology, pathogenesis, clinical evolution, presentation and course of common diseases in the elderly | SU28.3 Describe causes, clinical features, complications and principles of management of peritonitis |

SU29.1 Describe the causes, investigations and principles of management of Hematuria SU29.3 Describe the Clinical features, investigations and principles of management of urinary tract infections - VERTICAL INTEGRATION with Microbiology

Clinical posting

CT2.21 Describe discuss and counsel patients appropriately on smoking cessation

CM_Pandemic Module 3.2 Interdisciplinary collaboration, Principles of Public Health Administration, Health Economics (Role play , Group Discussion)

Revision Competency 21.1 Nonhormonal Contraception Q & A

Clinical posting

20.4 Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act and Human Organ Transplantation acts and its implications. (L) AITO Surgery & NOTTO OR2.12 - Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fracture shaft of femur in all age groups and recognition and management of fat embolism as a complication

LECTURE 50A-OCULAR TUMOURS
OP2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral

LECTURE 50B-OCULAR TUMOURS
OP2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral

Lecture PE 30.14 Discuss the etio-pathogenesis, clinical features and management of Duchene muscular dystrophy

Clinical posting

SDL - PS2.2 Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance.

REVISION CLASS 1-Q&A

Clinical posting

Revision Competency 21.1 Permanent methods of contraception Q & A

SU29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of gastrointestinal system. VERTICAL INTEGRATION with Anatomy SU29.4 Describe the clinical features, investigations and principles of management of malnutrition

DOAP FM 14.1 - 22

SGD FM 5.1- 8.10

EN4.18 Describe the clinical features, investigations and principles of management of Facial Nerve palsy

Clinical posting

Lecture PE 30.15 Discuss the etio-pathogenesis, clinical features and management of Ataxia in children

CM_Pandemic Module 3.3 Operational Research, Field work, Surveillance (Lecture & Discussion)

SU29.5 Describe the clinical features, investigations and principles of management of renal calculi SU29.7 Describe the principles of management of acute and chronic retention of urine

Clinical posting

CT2.22 Demonstrate and counsel patient on the correct use of inhalers

REVISION CLASS 2-Q&A

REVISION CLASS 2-Q&A

Revision Competency 33.3 Cervical Cancer Screening Q & A

Clinical posting

CM 15.1-15.3 (Mental Health) Revision

SDL - PS2.5 Define and distinguish normality and abnormality

Lecture PE 30.16 Discuss the approach to and management of a child with headache

Clinical posting

REVISION CLASS 3-Q&A

Clinical posting

Revision Competency 12.1, HT in Pregnancy Q & A

SU29.6 Describe the clinical features, investigations and principles of management of renal tumours SU29.8 Describe the clinical features, investigations and principles of management of bladder cancer

DOAP FM 14.1 - 22

SGD FM 9.1- 10.1

Self directed learning

Clinical posting

Skills session PE 30.22 Interpret the reports of EEG CT2.23 Communicate diagnosis treatment plan and subsequent follow up plan to patients

CM_Pandemic Module 3.3 Operational Research, Field work, Surveillance (SDL & discussion)

SU29.9 Describe the clinical features, investigations and principles of management of disorders of prostate SU29.10 Demonstrate a digital rectal examination of the prostate in a man SU29.11 Describe clinical features, investigations and management of testicular structures SU29.12 Describe the clinical features, investigations and principles of management of pituitary parsimonious and carcinoma penis SU30.1 Describe the clinical features, investigations and principles of management of undescended testis VERTICAL INTEGRATION with Anatomy

Clinical posting

Self directed learning CM 17.4 NRRHM, UHC Revision lecture

REVISION 4 Q&A

REVISION 4 Q&A
